

CHAPTER V

CONCLUSION AND SUGGESTION

In this chapter, the researcher presents the conclusion of the study. Besides, the writer also suggests lecturers, students, and future researchers.

1.1 Conclusion

Based on the data analysis, note-taking and attending class regularly were the techniques of study habits that have a more significant influence on the students' academic achievement. Besides that, there were differences between the study habit of high and middle achievers of the English Department of Muhammadiyah University of Mataram towards their academic achievement. The researcher concluded that high and middle achiever groups were different in all aspects of study habits. The result of the questionnaire proved it. They were different in:

1. Note-taking.

80% of higher achievers always make important notes about the lesson while the middle achievers are 40%.

2. Time management.

40% of the high achievers always study at home for 2-3 hours per day when the middle achievers are 20%.

3. Internet Skill

40% of high achievers select always in internet skill, and no one of middle achievers chose it.

4. Eliminate distraction/concentration

20% of high and middle achievers always read the passage many times.

5. Preparation for Exams

60% of high achievers always do their classwork, whereas the middle achievers are 20%.

6. Planning of the Subject

40% of high achievers always finish the easier task first, followed by the difficult one, while 60% of middle achievers do it.

7. Priority of Study

20% of high achievers select always, while 40% of middle achievers pick it.

8. Attend Class Regularly

100% of high achievers always attend class regularly, while only 20% of the middle achievers do it.

9. Proper Rest Period

0% of high achievers always have a proper rest period when the middle achievers are 40%.

10. Habit Related to Reading

40% of high achievers always summarize the important idea in reading text, and 20% of middle achievers do it.

Furthermore, the average score between high and middle achiever emphasizes that differences, where the high level students gained score on average amount to 3.6% (study habits). In comparison, the middle-level students' achieved 3.4 % (study habits).

1.2 Suggestion

After the conclusion of this study, the researcher offers the following number of suggestions that can be taken as consideration for lecturers, students, and the next researcher to apply good study habits:

1. To lecturers

The teacher or lecturer can use this research to help the students manage their study habits to be high achievers.

2. To students

The low and middle achievers can use this research to know what high achievers' study habits have to help them get a high achievement.

3. To the next researcher

They could discuss different study habits of high and middle achievers by using observation from time to time to get better results in their research.

Study Habit Inventory

Name : High achiever A

Semester:

Student Number :

GPA :

Direction: For each statement below, please indicate.

No	Items	Always (5)	Often (4)	Sometimes (3)	Almost Never (2)	Never (1)
1	Make the important notes about the lesson					
2	Write the new vocabulary					
3	Write the important things by the lecturers' explanation					
4	Write a notes from books					
5	Write a notes from internet					
6	Study at home for 2-3 hours per day					
7	Study at the same time					
8	Make a task before submitting day					
9	Make time list to study					
10	I read different subject each day according to a fixed routine					
11	I look up information for a college project or do homework from internet					
12	View of the content, chapter, going through					

	the headline and sub heading of book					
13	Read the passage many times					
14	Make a link the material to my life					
15	I read with full of concentration					
16	Do my class work					
17	Find out when the test will be given out					
18	Review the subject material					
19	Obtain a good night rest before testing					
20	Eat normal breakfast before testing					
21	Do easier task first than followed by the difficult one					
22	I read the lesson before they are taught in the classroom					
23	I study again the lesson taught by teachers, as early as possible					
24	I prioritize my study rather than activities like organization					
25	I attend school regularly					
26	I have proper rest periods					
27	I prefer read books written by English					

28	Use skimming technique					
29	Summarize the important idea in reading text					
30	Only read the important information in the text
