

CHAPTER V

CONCLUSION AND SUGGESTION

In this chapter, the researcher discusses the conclusion and suggestion from the result of the study.

5.1 CONCLUSION

Based on the results gotten from chapter 4, the researchers analyzed the signs contained in Instagram Stories by English Students at the Faculty of Teacher Training and Education, Muhammadiyah University of Mataram, in Academic Year, 2018/2019. By utilizing a descriptive analysis method based on Pierce's theory is visualized in a triangular shape to classify and reveal the meanings contained in these signs. The types of signs are as follows:

- ❖ Icon : In the process of analyzing the icons, the researcher got 5 different icons found in the insta'story, including emoticon love, a representation of feelings of love.
- ❖ Symbol: In the process of analyzing symbols, researchers got 6 symbols as well, the Green Almamater is a symbol of the existence of students at the Muhammadiyah University of Mataram.
- ❖ Index: Researchers only get 5 indexes. Among them, there is a crying emoticon index representing feelings of sadness.

Thus, the researcher can assume that the level of utilization of the signs contained within the Instagram story is very high because 75% of the students are very active in utilizing Instagram. So, the signs are considered very important and represent their feelings and emotions.

5.2 SUGGESTION

Based on the result of the research, A Semiotic Analysis of Self – Presentation in Instagram Stories by English Student at Faculty of Teacher Training and Education, the Muhammadiyah University of Mataram in Academic Year 2018/2019. The writer hopes that this research can contribute to the semiotic process proposed by Charles Sanders Peirce to find out the representation is the form taken from the sign. An interpreter is not a supporting reference in analyzing literary works through a semiotic framework. However, this research is still not perfect. For readers who are interested in doing the same study on semiotics, sign refers. The author suggests taking Peirce's theory to find out the results of the study.

Finally, the author hopes that this research will be useful for further researchers to enrich the learning of semiotics. Especially in the English language department, the faculty of teacher training and education at the Muhammadiyah University of Mataram.

Bisakah Anda menjelaskan apa yang Anda maksud dengan menggunakan tanda 🙄 dan caption "Habe-dey toyo" dalam cerita Anda? (16.03) Receiver (White bubble): Assalamualaikum. Dengan pertanyaan tersebut sebagai bentuk penguatan dalam penelitian sebagai berikut : Nama : Nim : 1. Apakah Anda memiliki akun Instagram? - Tentu saya punya 2. Instagram story adalah fitur untuk memposting foto, video, dan aktivitas dalam jangka waktu tertentu. Bisakah Anda menjelaskan tujuan Anda memposting foto atau video di cerita Instagram? - Ada beberapa tujuan saya memposting foto ataupun video di instastory, diantaranya untuk mengekspresikan apa yang sedang saya kerjakan atau alami, selain itu saya mempostingnya juga untuk merepost ulang kejadian/peristiwa yg sedang terjadi diluar atau di media lain. 3. Di Instagram Stories, ada banyak jenis emoticon unik. Bisakah Anda menjelaskan mengapa Anda selalu menggunakan emoticon tertentu ini? - Saya sering menggunakan emoticon 🙄 karena dengan ini saya mengekspresikan kekecewaan terhadap kebijakan atau kejadian yg terjadi, namun itu tidak menjelaskan bahwa saya sedang sedih ya, karena ketika saya sedih saya tidak mau orang lain melihat kesedihan saya, jadi saya posting tentang diri saya sendiri hanya tentang kebahagiaan. 4. Di Instagram Stories, semua jenis emoticon juga digunakan di setiap postingan. Apakah emoticon itu penting, atau apakah itu mewakili perasaan Anda? - Menurut saya penting, dengan emoticon saya tidak perlu menulis bahwa saya sedang senang maupun kecewa, karena dengan emoticon itu sendiri bisa mewakili apa yg sedang saya rasakan. 5. Bisakah Anda menjelaskan apa yang Anda maksud dengan menggunakan tanda 🙄 dan caption "Habe-dey toyo" dalam cerita Anda? - Emoticon "🙄" sebenarnya tidak sedang bersedih, namun bentuk kekecewaan yg cuma bisa saya terima dengan lapang dada, tetapi itu tidak menjelaskan kesedihan saya. Dan untuk "Habe-de toyo" itu sebetulnya cuma ucapan "HBD TO YOU" namun saya ganti dengan spelling seperti biasanya karena menurut saya penggunaan HBD di Indonesia sangat mainstream jadinya dengan pengucapan "Habe-de toyo" saja orang sudah paham. (16.23) Sender (Green bubble): Itu wit (16.23) Receiver (White bubble): Maaf yaa telat (16.23) Sender (Green bubble): Terimakasih banyak iki 🙏🙏🙏 (16.52) Receiver (White bubble): English Rifki Maaf yaa telat GPP (16.52) Sender (Green bubble): Anda Terimakasih banyak iki 🙏🙏🙏 Sama sama wit 😊 (17.02)
