

## CHAPTER V

### CONCLUSION AND SUGGESTION

#### A. Conclusion

Based on the findings, The researcher concluded that the learning strategies used by student's in learning listening at Mumammadiyah University of Mataram academic year 2022 was cognitive startegies with highest choice with percentage (38,74%), Metacognitive strategies with percentage (37,76%), and Socio Affective Strategies with percentage, (32,0%).

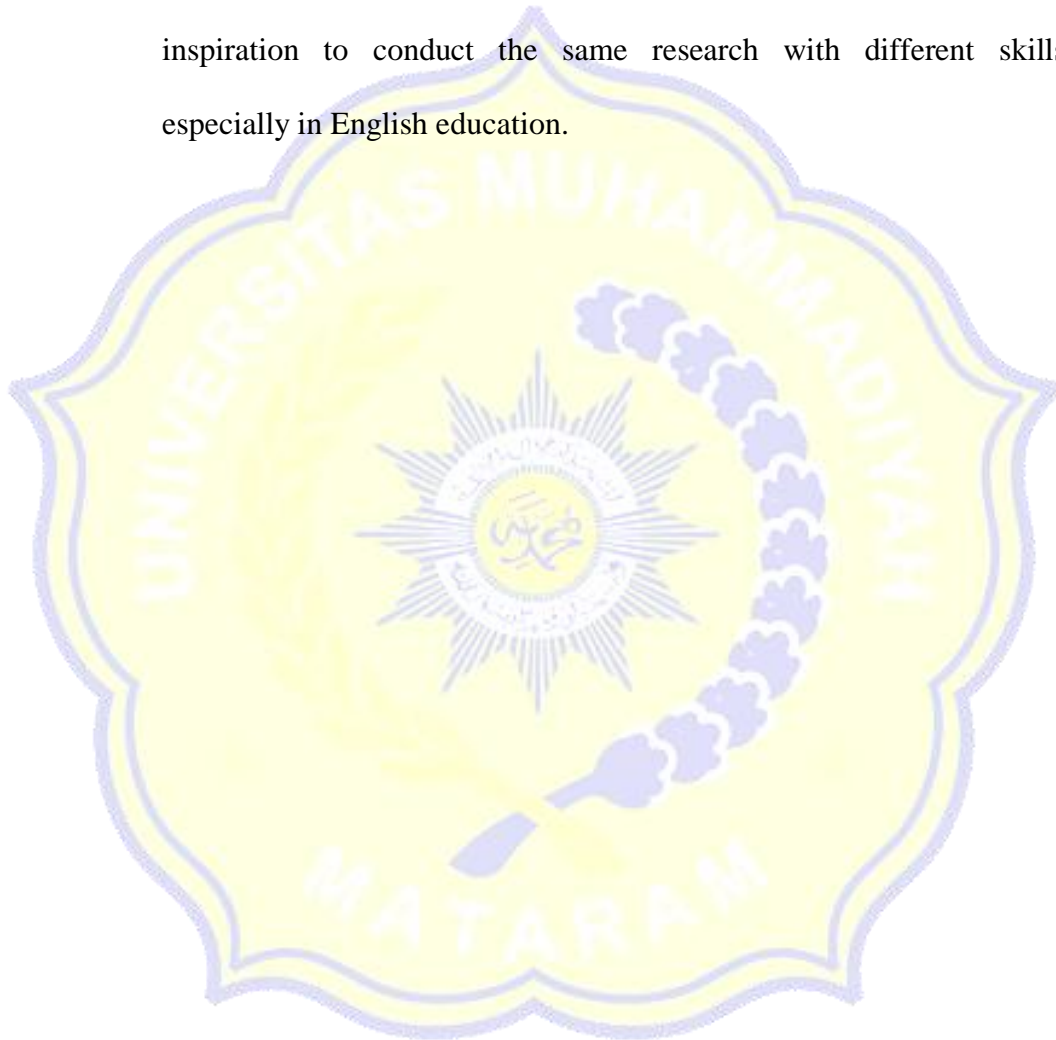

Generally , all of the students at Muhammediyah University of Mataram used cognitive strategies in learning listening. They also use resourcing strategies to chose the material that suits for their needs and interests in order to increase their general ability, particularly in listening.

#### b. Suggestion

Basen on the finding above, cognitive strategies are the higest chosen by the students at Muhammediyah University of Mataram Academic year 2022. As could be seen on the result above , and the researcher woul like to suggest as follows:

1. This research expected that English students always learn in develoving and increasing ability in listening by using many ways and use learning strategies that appropriate with interests and their own ways in the proper condition and situation.

2. This research is an input for academic and many people especially who concern in English education section and other institution.
3. For the readers, this research expected may help the readers to add knowledge about learning strategies in learning listening
4. The resacher hope that the next researcher interested and became inspiration to conduct the same research with different skills especially in English education.
